

High Brightness

High brightness panel allows the user to see the display under strong sunlight or under direct light which enables operation under special condition environment.

- Sunlight Readable
- 5.7" ~ 31.5" Panel Size for Selection
- Extent LED Lightbar Life Time
- Brightness Enhancement
- Optimization Heat Dissipation Solution
- Customization Design Services

High Brightness Customized

1. Choose your panel size, resolution, luminance and panel interface.
2. Your product application? (Outdoor or Indoor)
3. Depend on your product needs, we will advise the best solution for your project.

High Brightness Display									
Size	Part No	Resolution	Brightness (cd/m ²)	Wide View Angle	Viewing Angle	LED Life Time (hr)	LED Brand	LED Driver	Panel Interface
5.7"	E057QTZ-801	320 x 240	800		80/80/70/70	50,000	Original	Built-in	TTL
